OBJECTIVE

I am a web developer with a knack for breaking down code and building up teammates. I'm passionate about creating concise, maintainable code and inspiring team members to perform at a productive and sustainable level. I want to contribute to a project that has a tangible impact on others' lives and to create something that helps individuals better themselves every day. I'd love to be a part of an agile team that values teaching and mentoring other team members in addition to working efficiently.

SKILLS

Ruby, Rails, Sinatra, RSpec, Jasmine, Capybara, Git, Github, Heroku, PostgreSQL, SQLite3, Active Record, Travis CI, Google APIs, OmniAuth, HTML5, CSS3, Bootstrap, Javascript, jQuery, AJAX, Backbone.js, Agile Development, Test Driven Development, Object-Oriented Design

PROJECTS

Timetris

Timetris connects with your Google Calendar to fill gaps in your daily schedule. It was developed in 7 days as a final project during Dev Bootcamp. Timetris was built primarily with Rails and Javascript using technologies such as Omniauth and the Google Calendar API.

Musikit

Musikit is a simple Django app written in Python that utilizes the library Pafy to retrieve metadata from Youtube. Musikit was developed in a day as a weekend deep-dive into Python and Django.

EXPERIENCE

Development Student

Dev Bootcamp · 2015

At its core Dev Bootcamp is more than a technical program. I explored and learned a multitude of technologies under the tutelage of experienced instructors, but equally important were the lessons about empathy and agile teamwork. Furthermore I became an expert learner; out of necessity I devoured information in order to immediately apply it to the challenge at hand. Overall Dev Bootcamp taught me to respect others and continually expand my knowledge base, two invaluable traits in any environment.

Investment Analyst

Colina Partners LLC · 2014

Colina Partners is a multi-strategy investment advisory specializing in a value-oriented approach. I scoured financial statements, economic journals, newspapers, and editorials to uncover novel investment opportunities for inclusion in the fund's portfolio. Additionally I analyzed macroeconomic, quantitative models for potential investment avenues.

Co-Manager

Kroger · 2012 to 2014

As a manager, my responsibilities were manifold. I monitored labor budgets and executed sales plans to contribute to profit margins of the largest store in the company with direct accountability for the Drug/General Merchandise department. My desire to educate and engage with associates to develop a group of strong leaders and customer-first performers was perhaps just as essential to the performance of the store.

EDUCATION

Dev Bootcamp

Dev Bootcamp is a 19-week intensive training program for aspiring web developers specializing in Ruby, Rails, Sinatra, HTML5, CSS, Test Driven Development, Object-Oriented Javascript (AJAX, jQuery), Backbone.js, RSpec, Jasmine, Capybara, Git, Github, Heroku, and Agile Development. I graduated from the program in May 2015. The first 9 weeks of the curriculum are remote, while the second 9 weeks are an immersive, on-site experience. The program also addresses intra- and interpersonal strategies for fostering optimal learning and teamwork environments. 2015

The Ohio State University

College of Arts and Humanities, Bachelor of Arts Major: English, Minor: General Business 2011
